### **PROFESSIONAL SUMMARY**

Acoustics engineer with over 2 years of experience in audio systems design, technical support, and project coordination within the professional audio industry. Proven ability to lead engineering teams, manage technical pre-sales, and launch new business verticals including e-commerce and education. Strong problem-solving skills, adaptability, and commitment to excellence in fast-paced, customer-facing environments.

### **EXPERIENCE**

#### ***Coordinator, EXOSOUND***

***January 2024 - Nowadays***

- Lead engineering team for AV fixed installation projects, focusing on technical pre-sales, design, live demos, and PoCs for brands including Biamp, L-Acoustics, Audio-Technica, Solid State Logic, RF Venue, and VESTEL.
- Deliver customer solutions and warranty services through a ticketing system and in-house repair lab.
- Launched and manage e-commerce presence across Mercado Libre, Tienda Nube, and EXOSOUND's site; responsible for pricing, stock control, promotions, and strategy.
- Impulsed EXOSOUND's educational division: developed certified courses including content, duration, target audience, and training materials.

#### ***Intern, EXOSOUND***

***June – December 2023***

- Supported audio system designs for professional events and exhibition stands.
- Contributed to large-scale event pre-production.
- Managed technical documentation and translation for public tenders and commercial offers.

### **EDUCATION**

#### ***Acoustics engineering – Ingeniería de sonido***

***June 2024***

UNTREF (Universidad Nacional de Tres de Febrero)

### **SKILLS AND INTERESTS**

- **Technical:** Dante level 3, L-Acoustics SoundVision, Biamp TesiraSERVER, Biamp Optimized control design, Biamp soundmasking, Machine Learning with Python.
